METALLIC MUSIC STAND LAMP

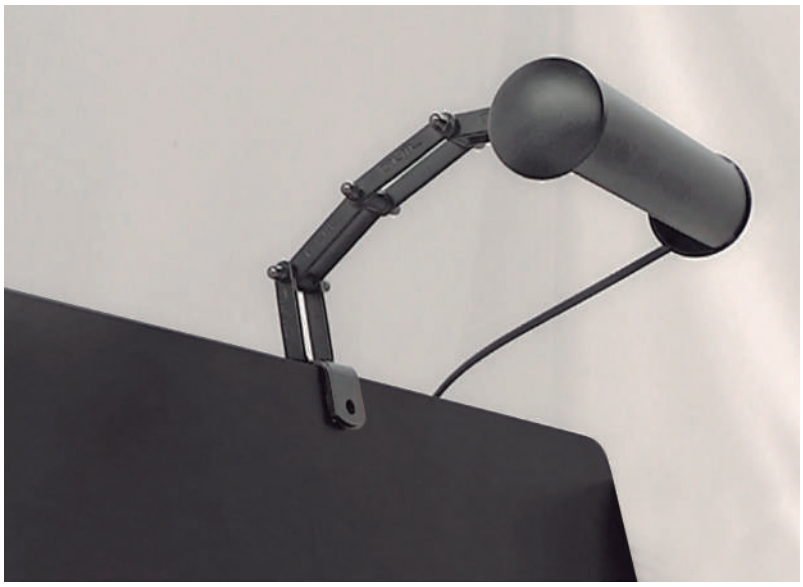

With four articulations

Music stand lamp **with four articulations** allowing it to be placed in any position, **achieving a complete and uniform lighting.**

Its special design distributes concentrated light over the music stand desk, reducing light dispersion.

It has a fitting for light bulb or LED light of up to 25 watts, with an E14 fitting (bulb not included).

LP-01 music stand lamp attaches easily to any music stand. Its clamp has a protective mounting plate to prevent damage to music stands. It is provided with 1.5 m electrical cable with on-off switch and Euro-style plug.

Our music stand lamp is manufactured in steel and finished in a textured, black, anti-scratch powder coating for maximum durability.
