100% ALUMINIUM MODULAR ACCESS STAIR

ECD

Strengthened access stair manufactured in 100% aluminium with a non-slip (diamond plate) top surface, consisting of detachable steps and legs and connectors to join the steps together and fasten them to the stage.

FOR INDOOR AND OUTDOOR USE: ECD stairs are manufactured entirely in aluminium, which guarantees great durability and offers a professional design.

ECD20-80

DETACHABLE LEGS

MODULAR STEPS: Steps of 30 x 80 cm, made from heavy-duty aluminium with non-slip diamond plate pattern.

EASILY TAKEN APART: Designed to be taken apart for easy storage, which also allows different kinds of legs to be used, depending on the nature of each event.

GUIL®

Since 1983

100% ALUMINIUM MODULAR ACCESS STAIR

ECD

ALUMINIUM LEGS: Interchangeable fixed-height legs in heavy-duty aluminium with a reinforced 50x50 mm profile and four 4 mm internal nerves. The legs have an outsize rubber foot that prevents slipping and guarantees a perfect grip on any surface.

CONNECTING HARDWARE: Each ECD Step is supplied complete with the connectors needed to attach the step to the stage and nuts and bolts to fix the steps to each other.

The ECD's modular system allows as many steps as necessary to be used, depending on the height of the stage to be set up, as well as placing one step next to another to make wider stairs. We manufacture 5 standard models of stairs:

REFERENCES	STAIR HEIGHT	Nº OF STEPS	FOR STAGES WITH HEIGHT OF	NET WEIGHT
ECD20	20 cm	1	40 cm	6.25 Kg 14 lb
ECD20-40	40 cm	2	60 cm	13.30 Kg 29 lb
ECD20-60	60 cm	3	80 cm	21.50 Kg 47 lb
ECD20-80	80 cm	4	100 cm	31.00 Kg 68 lb
