MODULAR STAIR

ECT

MODULAR STAIR IN ALUMINIUM AND BIRCH PLYWOOD

Stair for stages, consisting of steps made of aluminium and 100% birch plywood. The ECT stage stair combines design, strength and light construction, providing a professional appearance in the same finish as the stage, as it is made of the same materials as the platforms.

INDOOR & OUTDOOR USE: Thanks to their aluminium structure and weather-resistant board, the ECT stairs are a perfect option for events both indoors and outdoors.

Ref. ECT20-80

ECT20-40

Ref.
ECT20-60

MODULAR STEPS of 30 x 80 cm with a non-slip surface, manufactured with a robust aluminium frame (alloy EN AW 6063 80-T6) with a continuous rail design which allows accessories such as handrails, skirting or coverings to be fitted quickly and easily and 15 mm-thick 100% birch phenolic plywood board with sealed edges.

The panels, composed of birch veneer layers stuck together with phenolic resin, are treated with fire- and water-resistant (**not waterproof**), substances as well as against commonly used chemical products.

MODULAR STAIR

ECT

ALUMINIUM LEGS: Each step is provided with 4 detachable legs: three fixed-height legs with rubber non-skid terminals, and one leg with a leveller screw to adjust for possible irregularities underfoot (ramps, uneven terrain, etc). The legs are made of aluminium with a 50 x 50 mm section, with four 4 mm internal veins and rounded corners.

HANDRAIL*: ECT stairs of 4 or more steps are supplied with two quick-fastening handrails (Ref. PSA-06), manufactured in reinforced aluminium finished in black powder paint, and 4 connectors (Ref. ANQ) to fasten them to the stairs..

CONNECTORS: ECT stairs are supplied with all the fastening elements necessary to ensure 100% safe assembly:

- 1 fastening system (Ref. AN-ECT) to attach the stairs to the stage;
 - Leg connectors (Ref. TMU-07) to join the steps by two of their legs.
- ECT20-40: 2 units / ECT20-60: 4 units / ECT20-80: 6 units / ECT20-100: 8 units.

HANDRAIL WITH
REINFORCED PROFILE

The ECT's modular system allows as many steps as necessary to be used, depending on the height of the stage to be set up, as well as placing one step next to another to make wider stairs. **We manufacture 5 standard models of stairs:**

REFERENCE	HEIGHT	Nº OF STEPS	FOR STAGES WITH HEIGHT OF	NET WEIGHT
ECT20	20 cm	1	40 cm	11 Kg
ECT20-40	40 cm	2	60 cm	23 Kg
ECT20-60	60 cm	3	80 cm	37 Kg
ECT20-80*	80 cm	4	100 cm	51 Kg
ECT20-100*	100 cm	5	120 cm	65 Kg

We can manufacture modular stairs with as many modules as necessary: please don't hesitate to contact GUIL's technical department to ask for a detailed quotation.

STANDARD REFERENCES:

Stairs ref. ECT20: For 40cm-high stages. Stairs consisting of one step with a 300 x 800 mm footprint, three fixed-height legs and one with leveller.

Stairs ref. ECT20-40: For 60cm-high stages. Stairs consisting of two steps with a 300 x 800 mm footprint, three fixed-height legs and one with leveller per step.

Stairs ref. ECT20-60: For 80cm-high stages. Stairs consisting of three steps with a 300 x 800 mm footprint, three fixed-height legs and one with leveller per step.

Stairs ref. ECT20-80: For 100cm-high stages. Stairs consisting of four steps with a 300 x 800 mm footprint, three fixed-height legs and one with leveller per step. Includes a set of two handrails ref. PSA-06.

Stairs ref. ECT20-100: For 120cm-high stages. Stairs consisting of five steps with a 300 x 800 mm footprint, three fixed-height legs and one with leveller per step. Includes a set of two handrails ref. PSA-06.

CUSTOMISABLE: ECT stairs are totally customisable. We manufacture steps of any size (length and depth), we can modify the height of the legs, paint the structure in any colour as required, we can even make the steps with transparent methacrylate panels if backlighting is desired, to give a more spectacular effect to the entrance to and exit from the stage. Please contact our technical department to request a quotation for special dimensions and/or heights.

Declara que el modelo: Escalera modular de aluminio y madera / *Modular stair in aluminium and plywood*
Declares that the model:

Ref.	Nº de peldaños <i>Nr of steps</i>	Altura escalera <i>Stair height</i>	Para escenarios con altura de: <i>For stages with height of:</i>
ECT20	1	20 cm	40 cm
ECT20-40	2	40 cm	60 cm
ECT20-60	3	60 cm	80 cm
ECT20-80	4	80 cm	100 cm
ECT20-100	5	100 cm	120 cm

Cumple con los requerimientos de las siguientes normativas:
Complies with the requirements according to the following standards:

- EN 17736
- DIN 15920-2
- EN 1995-1-1 (EUROCODE 5)
- EN 1999-1-1 (EUROCODE 9)

- Perfiles de aluminio según / *Aluminium profiles according to:* **EN 573-3 / EN 755-2**
- Tablero de contrachapado fenólico según / *Phenolic plywood panel according to:* **EN 13986**
- Uso clase 3 (uso en exteriores) según / *Use class 3 (external use) according to:* **EN 636-3**
- Reacción frente al fuego clasificación "B-s1" según / *Fire classification "B-s1" according to:* **DIN EN 13501-1**
- Resina fenólica resistente a la intemperie, encolado clase 3 según / *Weather resistant phenolic resin class 3 according to:* **EN 314-2**
- Antideslizante clase R-13 según / *Class R-13 non-slip finish according to:* **DIN 51130**

Este producto ha sido sometido a los controles de seguridad y pruebas de resistencia realizadas en la fábrica de producción.

This product has been submitted by the manufacturer to a factory production control and to the further testing of samples taken at the factory.
