STAGE PLATFORMS

WE MANUFACTURE 6 VERSIONS OF MODULAR STAGE PLATFORMS to cater to any type of stage configuration, from small events to stage decks for large set-ups.

STAGE PLATFORMS

We manufacture 6 versions of modular stage platforms to cater to any type of stage configuration, from small events to stage decks for large set-ups. At GUIL we only work with the highest quality raw materials to guarantee maximum durability of our decks and accessories. All our stage platforms are suitable to be used outdoors and are made with reinforced aluminium profiles (alloy: EN AW 6063 80-T6), and a 21 mm thick, birch panel, with phenolic resin between the plywood layers and a non-slip finish.

P.I. La Creu C/ Ismael Tomás Alacreu, 28-30 46250 - L'Alcúdia (Valencia) SPAIN Tel. +34 962996500 - info@guil.es

All of the panels we use to produce our platforms come from responsibly managed forests, having both the FSC and PEFC stamps.

All our platform connectors are made with weatherproof materials (aluminium, stainless steel etc.).

Our decks comply with all international safety regulations, have water-resistant and fire-retardant treatments, and can be used in any weather conditions (rain, snow, etc.).

We manufacture all our platforms in our own factory so we can offer custom platform sizes, round shapes, different colours and a wide variety of finishing surfaces to cover all the requirements for your project (transparent panel, steel grating panel, etc.).

GUIL, TOTAL SAFETY UNDERFOOT!
